Philosophy Vocabulary

WORD MEANINGS

Read the meanings, then try using a new word in a sentence.

Ethics
The study of questions about right and wrong behaviour.

Logic
The study of rules for sound reasoning.

Reason
To think carefully and use evidence or arguments to reach a conclusion.

Argument
Reasons offered to support a claim or conclusion.

Premise
A statement used as a starting point in an argument.

Conclusion
The claim that an argument's reasons are intended to support.

Evidence
Information used to support or challenge a claim.

Truth
Agreement between a statement and how things actually are.

Knowledge
Understanding or awareness; philosophers debate what counts as knowledge.

Justice
Fair treatment and questions about what people are owed.

Freedom
The ability to act or choose without certain restrictions.

Identity
What makes someone or something the same over time or distinct from others.

Existence
The state of being real or present.

Paradox
A puzzle or claim that seems contradictory or challenges expectations.

Scepticism
Questioning whether a claim is justified or can be known with certainty.
