Words About Words

WORD MEANINGS

Read the meanings, then try using a new word in a sentence.

Synonym
A word with the same or a similar meaning to another word.

Antonym
A word with the opposite meaning to another word.

Homophone
A word that sounds like another word but has a different meaning, such as sea and see.

Homonym
A word with the same spelling and sound as another but a different meaning, such as bat.

Prefix
Letters added to the start of a word to change its meaning, such as un- in unkind.

Suffix
Letters added to the end of a word, such as -ful in helpful.

Syllable
A unit of pronunciation containing a vowel sound; rabbit has two syllables.

Noun
A word naming a person, place, thing or idea.

Verb
A word expressing an action or state, such as run or be.

Adjective
A word that describes a noun, such as bright or tiny.

Adverb
A word that adds information about a verb, adjective or another adverb.

Pronoun
A word used in place of a noun or noun phrase, such as she or they.

Acronym
A word formed from initial letters and spoken as a word, such as NASA.

Idiom
An expression whose meaning differs from its individual words, such as spill the beans.

Etymology
The study of where words come from and how their meanings have changed.
