

Finished Size: Each dice measures approximately **2.5 cm on each side** when assembled.

For younger children, adult help is required!

1. **Cut out** the dice shapes carefully along the outer lines.
2. **Fold all tabs** along the lines so they bend inward.
3. **Take your time** folding for neat edges.
4. **Apply glue** to the tabs one at a time.
5. **Attach the tabs** to the matching sides to form a cube.
6. **Hold each tab in place** for a few seconds until the glue sticks.
7. **Optional:** Add a small piece of clear tape over the tabs for extra strength.
8. **Let the glue dry** fully before using the dice
